## CLEAMEN 420

Volume: 1 L

Product code: VC420010096

### Product description:

Sulphuric acid

Index Number: 016-020-00-8

Cleaning agent. For professional use only.

The product is intended for cleaning plastic and ceramic waste, sinks, showers, toilets, sewers, etc.

The liquid preparation contains concentrated sulfuric acid, which is heated rapidly by pouring into a siphon. The product removes rust and limescale and other „obstacles“ such as hair, soap, scraps, papers, etc. It is not recommended to use this product on steel waste pipes and flexible drain hoses. Be careful not to damage the surroundings of the waste contact with acid, especially colored plastic and metal parts of the sink!

### Instruction of use:

The preparation is used undiluted! It is slowly poured directly from the bottle in the prescribed amount into the cleaned waste. After pouring the product into the waste, leave it on for 15-30 minutes and then rinse with plenty of water. In case of completely clogged waste, first aspirate the water, mechanically release the available parts of the waste and then gradually dose the product in small doses.

Incompatible materials: Strong bases, bases, carbides, powder metals, chlorates, perchlorates, nitrates, picrates, strong oxidizing agents, permanganates, alkali metals, flammable materials.

	Average dose according to the size of pipe		
	sink pipe	cleaning drain	Toilet pipe
dose in ml	150	250	500
time of effect(min.)	15	25	30
pH of concentrate : 1			

### Physical and Chemical properties:

Form:	Liquid
pH:	0,5-1,0
Colour:	Colourless
Odour:	characteristic

### Instruction about storage:

> 5 °C < 25 °C. Protect against freeze.

### Ingredients:

DANGER.

Causes severe skin burns and eye damage.
